✨ Professional Summary

I am a **Data Analyst** with a background in Statistics and hands-on skills in **Python, SQL, and Excel**.
I specialize in **data cleaning, visualization, and building dashboards** that transform raw data into meaningful business insights.

Currently pursuing a ***Data Science certification***, I have worked on projects involving **sales trend analysis, customer segmentation, and KPI dashboards**.
My prior experience in **customer operations and team supervision** has strengthened my ability to manage data, generate reports, and support decision-making.

I am passionate about solving problems with data and continuously learning new tools in the analytics space. Open to opportunities where I can contribute as a Data Analyst and grow with a forward-thinking organization.

🔷 Skills (GitHub-Style Badges)

🐍 Python   🐘 SQL   MS Excel   Power BI   Tableau   📊 Pandas   📈 Matplotlib   🗇 Seaborn
🗇 Data Cleaning   🔺 Data Visualization

🟢 Projects

Sales Data Analysis Project
🔗 GitHub Repo & Profile

- Performed **EDA** - (exploratory data analysis) on Superstore dataset using Python (Pandas, Matplotlib, Seaborn).
- Identified **sales trends, top-performing products, and regional insights**
- Built **interactive dashboard** in Excel to visualize KPIs.

Customer Segmentation (SQL Project)

- Wrote **SQL queries** to segment customers based on purchase behavior.
- Generated insights to improve customer targeting strategies.

KPI Dashboard (Power BI)

- Designed **interactive dashboard** for KPIs (sales, revenue, profit margins).
- Improved **reporting efficiency** and supported decision-making.

🎓 Education

- **Bachelor's Degree in Statistics** — [Bhavans University, Mumbai]
- Currently pursuing **Data Science / Data Analytics Certification with Gen AI** — [Top Mentor Institute & DataTrained Education Academy]

📜 Certifications (In Progress)

- Python for Data Science — [Top Mentor Institute & DataTrained Education Academy] *(In Progress)*
- SQL Basics — [Top Mentor Institute & DataTrained Education Academy] *(In Progress)*
- Excel for Data Analysis — [Top Mentor Institute & DataTrained Education Academy] *(In Progress)*

💼 Experience

Athena BPO Pvt. Ltd. — Customer Service Associate

- Handled customer queries and prepared reports with accuracy.
- Strengthened skills in data handling and reporting.

Star Bazar Mall — Team Supervisor

- Managed daily operations and supervised team members.
